IMPORTANT NOTE from Andy

In addition to the XPlan price shown above you can also use the current incentives offered by Ford of Canada. I am writing this on January 27th 2010. Today there is a \$7,000 dealer credit on the F-150 so the XPlan price will be reduced from \$46,854.75 to \$39,854.75 plus taxes.

It's important to note that not all vehicles have this kind of mark up so the XPlan price on other models will not be a dramatic as the F-150. Remember that you don't pay dealer admin fees either.
